

STATEMENT OF QUALIFICATIONS

Prism Geolmaging, Inc., established in January 2008, provides geophysical and subsurface imaging services to public and private sector clients. Prism Geolmaging, Inc. is eager to represent your organization as a technically independent extension of your professional staff. Our goal is to provide you with excellent service using senior, highly experienced personnel, and maintain cost-effective rates for our services. We will provide you with responsive and professional service using dedicated and skilled personnel.

PROFESSIONAL SERVICES

The professional services we have provided to our clients are diverse. We have considerable experience in the application of geophysics to many areas including environmental investigation and remediation, geotechnical engineering, construction, water supply, natural resources, archeology, and cultural resource management. We are able to derive innovative and effective solutions to most subsurface imaging problems. If expert witness or litigation support services are required, we can provide this level of service. Services we have provided to private and public sector clients include the following:

- Search for underground storage tanks (USTs) and steel drums
- Mapping of municipal or industrial landfills
- Brownfield site investigations of historical infrastructure and wastes
- Contaminant plume and pathway detection and mapping
- Depth to bedrock and rippability analysis
- In-situ shear wave velocity determination
- Sand and gravel mapping
- Aquifer characterization and mapping
- Karst limestone investigations
- Borehole geophysical and video logging
- Utility and underground hazard mapping
- High resolution examination of pavement, floors, and walls
- Characterization of historic and prehistoric cemeteries and settlements

PERSONNEL

Prism GeoImaging is wholly owned by John Vanderlaan. A brief description of his professional experience is presented below, and a resume for Mr. Vanderlaan is available by request.

JOHN VANDERLAAN, LPG: Mr. Vanderlaan is a founding Principal of Prism GeoImaging, Inc. and has over 10 years of professional experience. He has been engaged in a variety of engineering and environmental projects including subsurface geophysical investigations, site characterization studies, and environmental remediation operations. Mr. Vanderlaan's specialty is characterization of the subsurface using the geophysical methods of electromagnetic conductivity and metal detection, two-dimensional electrical resistivity, downhole logging, seismic refraction, seismic MASW, ground-penetrating radar (GPR), and gravimetry. Mr. Vanderlaan also has expertise in Global Positioning System (GPS) instruments, operation and software, and the incorporation of GPS positioning information with geophysical data acquisition. He is a Licensed Professional Geologist in the state of Indiana. Mr. Vanderlaan has an M.S. in Geology from Bowling Green State University in Ohio, and a B.S. in Geology from Calvin College in Grand Rapids, Michigan.

PARTIAL CLIENT LIST

Prism GeoImaging, Inc. has proudly served the following clients since our inception in 2008:

- Ortman Drilling
- Peerless Midwest
- Bowser-Morner, Inc.
- Capitol Engineering
- Consulting Services Incorporated of Kentucky
- Earth Exploration, Inc.
- Patriot Engineering and Environmental, Inc.
- Terra Site Development, Inc.
- Active Environmental

- Alliance Environmental
- American Structure Point
- ARCADIS
- Ark Engineering Services
- Astbury Environmental Engineering
- ATC Associates, Inc.
- August Mack Environmental, Inc.
- Bruce Carter Associates (BCA)
- Creek Run LLC Environmental Engineering
- Delta Consultants
- DESI Environmental Services
- Environ
- Environmental Consultants + Contractors Inc. (ECC)
- Environmental Resources Management (ERM)
- Enviro-Sense
- Fields Environmental, Inc.
- HydroTech
- IWM Consulting Group
- Pinnacle Environmental, Inc.
- Professional Service Industries
- RMT, Inc.
- Roberts Environmental
- Roux Associates, Inc.
- SESCO Group
- TetraTech
- The Wetlands Company
- Troy Risk
- Case New Holland
- Duke Energy
- Plews Shadley Racher & Braun
- Town of Brownsburg, Indiana

LOCATION

Prism GeoImaging, Inc. is a small business enterprise, fully insured (see below), with offices in Hamilton County, Indiana. Our contact info is presented below. Lacking the corporate overhead, Prism GeoImaging, Inc. can provide quality

services at cost effective prices. With the shrinking budgets for both public and private sector operations, Prism GeoImaging, Inc. realizes that project cost management is an important consideration for every client.

We appreciate the time you have spent reviewing our Statement of Qualifications and sincerely hope that Prism GeoImaging, Inc. can be of service to you in the near future. We will make every effort to provide you with responsive and efficient service to complete your project on time and on budget. Please do not hesitate to call us if we can be of any assistance.
